Dear Audience,

I welcome you on behalf of the Committee on Immunity, Incompatibility and Verification of Mandate. Our committee is the only standing committee of the Parliament based on parity. The same number of members of the governing party and members of the opposition take part in its work: it meant 4 commissioners from each in the parliamentary cycle of 2010-

The responsibilities of our committee-with an exception-is contained in its name: it deals with cases of immunity, incompatibility and verification of mandate and the committee also performs tasks related to the statement on property of the members of the Parliament.

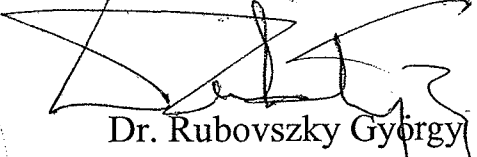

Nearly a year since its operation the committee has done the following:

-made proposals in 47 cases of mandate suspension to the Hungarian National Assembly and decision was taken in 9 cases of violation of parliamentary immunity

-made proposal in 1 case of incompatibility to the Hungarian National Assembly

-conducted the examination of election documents of new candidates for Hungarian Parliament in cases of vacant mandates

-the committee executed the necessary examination in one case of statement on property (January 2011)

Dr. Rubovszky György
